# The Collège de France Committee on Scientific and Strategic Orientation (COSS)

---

- 1 The Committee on Scientific and Strategic Orientation (COSS) was created by the Collège de France in 2003. The COSS consists of 12 leading scholars and scientists from abroad, chosen by the Faculty, which also appoints the Chairman and the Vice-Chairman of the Committee.
- 2 The role of the COSS is to analyse the Collège de France's scientific and strategic orientations and the conditions for fulfilling its missions, so that it can make recommendations on how these might evolve or be enhanced. The COSS also examines the coherence of the institution's strategy, the significance and the exploitation of the multidisciplinary of its Chairs, its international policy, the adequacy of its research resources in relation to its objectives, and the optimization of its administrative structures. The COSS is not expected to examine individually the scientific activities of each Chair, as these are evaluated by outside experts.
- 3 The members of the COSS are appointed for a period of four years, and half of the Committee is renewed every four years.

4 **Riccardo BARBIERI**, Physics, Scuola Normale Superiore, Pisa, Italy

5 **Suzan BERGER, Chairman**, Political Science, Massachusetts Institute of Technology, USA

6 **Lorraine DASTON**, History of Science, Max Planck Institute, Germany
